**Do Not EXPOSE Our Wholesale Prices To Your Landscape Clients or Other Customers.
WE DO NOT SELL AT RETAIL.**

Is It Fun ?

To try to get what is left from the defense preparations for we nursery-run business men to use? That is why we offer this style of price list instead of our usual dressed up catalog.

Wages are high and payrolls big. Merchandise values are fluctuating daily. Stabilized prices and adequate supplies, even of nursery stock, are difficult to offer. For these reasons our prices are subject to change without notice. They may go HIGHER and they might be reduced.

We offer new LOWER carload freight rates on balled and burlapped nursery stock between Texas and all points in Oklahoma, Louisiana and Arkansas; also to Memphis and other cities south to New Orleans on the Mississippi River.

Effective date will probably be in October. A few examples follow:

	Was 16,000 lbs	Now 18,000 lbs	Now 30,000 lbs
	rate per 100 lbs.		
Oklahoma City, Okla.	54c	40c	32c
Tulsa, Okla.	58c	42c	34c
Memphis, Tenn.	55c	40c	32c
Little Rock, Ark.	40c	33c	26c
Vicksburg, Miss.	47c	31c	25c
Baton Rouge, La.	47c	35c	28c
Lake Charles, La.	41c	31c	25c
New Orleans, La.	40c	39c	31c

Carloads with more than one order in may be stopped enroute for unloading for \$6.93 for each stop. Our trucks will deliver to reasonable distances on approximately the 18,000 pound carload basis. Carloads assure fresher looking plants and quicker deliveries.
